This is a home with a difference.

Designed to take advantage of the Darwin lifestyle and weather it has a pool to cool off in during the wet which is also heated so it can be still enjoyed during the dry by the locals or perhaps take in a few laps for the daily exercise. However if you just want to sit back and relax then there is always the spa on the back verandah to enjoy a cool beverage in!

This is a unique home with four well sized bedrooms and three bathrooms with solar hot water all under 500m² of roof. It's one that needs to be viewed to truly gauge its size! When you enter your mind starts to ponder all the different possibilities this one has and how you can make this a truly spectacular place to call home.
